# paperpush submission file for naacl_2027_demo  -*- mode: yaml -*-
# 2027 Annual Conference of the Nations of the Americas Chapter of the Association for
Computational Linguistics (NAACL 2027), System Demonstrations Track
#
# Edit the values below, then:
#   - to validate against venue guidelines: `paperpush validate naacl_2027_demo.sub.txt`
#   - to fill out submission portal: `paperpush submit naacl_2027_demo.sub.txt`
# Lines starting with '#' are comments and are ignored.
#
# To fill this in through a form instead, open it in the paperpush web page:
#   - run:  paperpush web naacl_2027_demo.sub.txt   (use this file's path)
#   - or visit https://paperpush.onrender.com and drag this file onto the page
#
# To fill this out with AI from your manuscript files:
#   - run this prompt in an AI agent (e.g. Claude Code):  /paperpush-autofill
naacl_2027_demo.sub.txt
#   - or run:  paperpush autofill --engine api -p MANUSCRIPT_DIR naacl_2027_demo.sub.txt

@venue: naacl_2027_demo
# submission guide: https://2027.naacl.org/calls/system_demonstration/

# ------------------------------------------------------------------------
# Files
# ------------------------------------------------------------------------

# PDF (file, REQUIRED)
#   The paper PDF, at most 50 MB, in the official NAACL 2027 style. Up to 6 pages of content
(longer submissions are desk rejected), plus unlimited pages for an optional ethics / broader
impact statement and references, and at most 2 pages of appendix. Page counting stops at the first
ethics / broader impact / appendix heading or the references (main_text_end_headings).
#   at most 6 pages in the main text
#   each file at most 50 MB
pdf_file:

# ------------------------------------------------------------------------
# Manuscript details
# ------------------------------------------------------------------------

# Title (text, REQUIRED)
#   Title of the paper. TeX formulas are supported with $In-line Formula$ or $$Block Formula$$.
#   at most 250 characters
title:

# Abstract (textarea, REQUIRED)
#   Abstract of the demonstration paper (Markdown and TeX formulas are supported).
abstract: |

# Keywords (text, REQUIRED)
#   Comma-separated list of keywords; each keyword at most 250 characters.
keywords:

# TL;DR (text, optional)
#   Optional. "Too Long; Didn't Read": a short sentence describing the paper.
```

```
#   at most 250 characters
tldr:

# Demo video URL (text, REQUIRED)
#   Required. A link (http:// or https://) to a screencast video of up to 2.5 minutes
demonstrating the system, e.g. on YouTube, Vimeo, or Google Drive. Narration or captions are
encouraged.
#   each non-blank line must be a valid http/https URL
demo_video_url:

# Live demo URL (text, REQUIRED)
#   Required. A link (http:// or https://) to the live interactive system or to a downloadable
installation package. Submissions without a link are desk rejected unless sharing one is clearly
impossible (e.g. specific hardware is required); the authors must then explain why, in the paper.
#   each non-blank line must be a valid http/https URL
live_demo_url:

# Ethics statement (textarea, optional)
#   Optional. Ethics or broader impact statement (Markdown supported).
ethics_statement: |

# ---------------------------------------------------------------------
# Authors
# ---------------------------------------------------------------------

# Authors (authorlist, REQUIRED)
#   One author per line, in order. Format: Open Review ID | Name | Email suffixes. Every author
must already have an OpenReview profile (new profiles without an institutional email can take up
to two weeks to be activated). If an Open Review ID is given, the name and email suffixes are
optional; otherwise each author is added by a profile search on the Name column, so the name must
match the author's OpenReview profile. Email suffixes are comma-separated, in decreasing order of
likelihood of association with the author. At least one author is required. Review is single-
blind, so author names must also be in the PDF.
