2027 Annual Conference of the Nations of the Americas Chapter of the Association for Computational Linguistics (NAACL 2027), System Demonstrations Track

System demonstrations track of NAACL 2027 (San Francisco, June 1-5, 2027): short papers with a demo video and a live demo or installable package, published in a companion volume of the proceedings.

Conference | Portal login needed to submit

Author guidelines ↗

Submission portal ↗

Website ↗

For the initial submission. These fields and formatting rules are what NAACL 2027 Demo Track asks for when you *first* submit a new manuscript. Revised and accepted manuscripts usually have further requirements (source files, final figures, copyright forms); check the author guidelines when you get there.

11 fields	1/9 required fields filled	0 fields with issues	– checks passed (not run yet)

File uploads

Choose each file the venue takes. Click a box to pick the file, or drop it onto the box.

PDF `pdf_file`

file **required**

The paper PDF, at most 50 MB, in the official NAACL 2027 style. Up to 6 pages of content (longer submissions are desk rejected), plus unlimited pages for an optional ethics / broader impact statement…

`paper.pdf` 410 KB

Accepted file types: .pdf, .docx, .md

up to 50 MB each

Paper Metadata 0 of 7 filled

Copied from the manuscript.

Title `title`

text **required**

Title of the paper. TeX formulas are supported with $In-line Formula$ or $$Block Formula$$.

0/250 characters | at most 250 characters

Keywords `keywords`

text **required**

Comma-separated list of keywords; each keyword at most 250 characters.

Type and press Enter

Abstract `abstract`

long text **required**

Abstract of the demonstration paper (Markdown and TeX formulas are supported).

TL;DR `tldr`

text optional

Optional. "Too Long; Didn't Read": a short sentence describing the paper.

0/250 characters | at most 250 characters

Demo video URL `demo_video_url`

text **required**

Required. A link (http:// or https://) to a screencast video of up to 2.5 minutes demonstrating the system, e.g. on YouTube, Vimeo, or Google Drive. Narration or captions are encouraged.

http(s) links

Live demo URL `live_demo_url`

text **required**

Required. A link (http:// or https://) to the live interactive system or to a downloadable installation package. Submissions without a link are desk rejected unless sharing one is clearly impossible…

http(s) links

Ethics statement `ethics_statement`

long text optional

Optional. Ethics or broader impact statement (Markdown supported).

Authors 0 of 1 filled

Authors `authors`

authors **required**

One author per line, in order. Format: Open Review ID | Name | Email suffixes. Every author must already have an OpenReview profile (new profiles without an institutional email can take up to two…

#	open review id	name *	email suffixes

Attestations 0 of 2 filled

Statements you agree to for every author. The venue accepts only yes, so the form cannot be submitted until each is ticked. paperpush never ticks these for you.

☐ **Agree to all 2 attestations below**

We authorize the sharing of all author emails with Program Chairs. `email_sharing`

yes / no **required**

Confirms you are aware that all author emails will be shared with the Program Chairs.

☐ Yes, I confirm

We authorize the release of our submission and author names to the public in the event of acceptance.

`data_release`

yes / no **required**

Confirms you are aware that accepted submissions, with their author names, will be released to the public after the conference.

☐ Yes, I confirm

- Keywords: Keywords is required but empty
- Abstract: Abstract is required but empty
- Demo video URL: Demo video URL is required but empty
- Live demo URL: Live demo URL is required but empty
- We authorize the sharing of all author emails with Program Chairs.: We authorize the sharing of all author emails with Program Chairs. must be confirmed (set to yes)
- We authorize the release of our submission and author names to the public in the event of acceptance.: We authorize the release of our submission and author names to the public in the event of acceptance. must be confirmed (set to yes)

▶ 7 checks not applicable

Checked by Validate 34 checks

These read your uploaded files: formats and sizes, page and word counts, sections, statements, figures, layout, links, references, and whether the form matches the manuscript.

○ Upload files exist and have accepted types and sizes *Files*

○ Manuscript within the portal's word/page limits *Files*

○ Links cited in the files and URL fields are reachable *Integrity*

○ Reference DOIs match the works they cite *Integrity*

○ No cited work has been retracted	*Integrity*
○ References without a DOI match a registered work	*Integrity*
○ References cite the journal article, or the latest preprint	*Integrity*
○ No secrets or private information in the files	*Integrity*
○ No hidden text or prompts aimed at AI reviewers	*Integrity*
○ Each author has an active OpenReview profile matching their name and email domain	*Integrity*
○ Cross-references resolve (no “??”)	*Citations*
○ No two figures or tables share a caption or a number	*Citations*
○ Every figure and table has a caption	*Citations*
○ Main figures cited in order	*Citations*
○ Main tables cited in order	*Citations*
○ Abstract cites no references	*Abstract and front matter*
○ Manuscript gives a contact e-mail address	*Abstract and front matter*
○ Keywords given in the .sub or the manuscript	*Abstract and front matter*
○ Every reference is cited, and every citation has a reference	*References*
○ BibTeX entries are complete, closed, and have unique keys, and no work is listed twice	*References*
○ Reference list is alphabetical or follows first citation	*Manuscript details*
○ No placeholders, to-do notes, comments, or highlighting left in the files	*Manuscript details*
○ Share of references more than 10 years old	*References*
○ Citation density (citations per 1,000 words), reported for information	*References*
○ No double spaces between words	*Prose*
○ No accidentally doubled words (e.g., 'the the')	*Prose*
○ Spacing around punctuation	*Prose*
○ Brackets and quotes pair up	*Prose*
○ Common misspellings (codespell)	*Prose*
○ Varied word choice (no heavily repeated adjectives or adverbs)	*Prose*

- ○ Numbers of 10 or more in digits, thousands grouped one way — *Prose*
- ○ Abbreviations and compounds written one way (i.e., e.g., et al., vs., Fig.) — *Prose*
- ○ Acronyms spelled out at first use — *Prose*
- ○ Code behind the analysis is public, archived, licensed, and declares its environment — *Rigor and reproducibility*

▶ 29 checks not applicable

Checked only with AI 13 checks

Judgements that need someone to read the files: lettering in raster figures, free-text guideline rules, whether every field says what the manuscript says. Run them with “Validate, extended with AI”.

- ○ Ethics approval and consent — *Manuscript details*
- ○ Required declarations (conflicts, data, contributions, funding) present and in the right place — *Manuscript details*
- ○ Title page lists authors, affiliations, corresponding author, and contact emails — *Manuscript details*
- ○ Abstract has the required form and subheadings (plus PRISMA/CONSORT items for reviews and trials) — *Manuscript details*
- ○ Every mention of supplementary material has a matching uploaded item — *Manuscript details*
- ○ Trademarked product names and ™/® symbols flagged — *Manuscript details*
- ○ Content is in the section it belongs to — *Manuscript details*
- ○ Section headings match the text under them — *Manuscript details*
- ○ NIH funding statements give grant numbers — *Manuscript details*
- ○ Spelling, grammar, and tense (read by AI) — *Prose*
- ○ A clinical trial gives its own registration number — *Rigor and reproducibility*
- ○ Follows the reporting guideline for its study design (PRISMA for systematic reviews, CONSORT for trials, ...) — *Rigor and reproducibility*
- ○ Each figure panel is traced to the code and public data that draw it — *Rigor and reproducibility*
